

THREAT

to your green corridor

What's the council up to?

West of England Partnership, which includes Bristol City Council, plan to install a 'Bus Rapid Transit' (BRT) system between the City Centre and Emersons Green along the **Bristol & Bath Railway Path**.

How does this threaten our path?

The BRT system would **not** bring the promised benefits to Bristol's transport system and would **destroy** the path. In particular:

- **Greenway & wildlife destroyed and replaced with concrete**
- **Significant downgrading of walking & cycling facilities**
- **Community division with minimised joining and crossing paths**

What can I do?

- Sign the e-petition, write to your local councillor & MP
- Donate money or time to help
- Join us on the path Sunday March 30th
